## **Adding Barcode to the Specimen Box**

Locate the barcode that corresponds with the Accession Number (DBG Number). The number should be identical, with the barcode including the DBG-F-0 prefix.

Affix the barcode to the top of the Specimen Box so that it does not cover any of the label information, preferably in the lower left corner of the box lid. If the barcode will not fit on the box lid, it can be affixed to the bottom of the box. Do not affix the barcode to the side of the lid or box.
